

Special Light Cable Manufacturing Plant

Overview

The new facility is purpose-built to manufacture high-fiber-count optical cables for hyperscale, high-density, and next-generation network environments. Tokyo — March 12, 2026 - Furukawa Electric and Lightera announced the opening of a new optical cable manufacturing plant in Mie, Japan, in February along with the start of full-scale production of ultra-high-fiber-count optical cables, including cable designs with up to 13824 fibers, to support. We lead the market in manufacturing cables, conductors, and optical ground wire (OPGW) and leverage our understanding of transmission infrastructure to roll out sustainable, resilient and reliable energy networks. We upgrade ageing transmission infrastructure with innovative, cost-effective turnkey. With more than 25 years of experience supplying military tactical and tight-buffered indoor/outdoor fiber optic cables, OCC understands the requirements for tight-buffered fiber optic cables that can withstand the most challenging conditions found in industrial areas. Offering expert DFM review and NPI services for complex OEM projects. YC Cable manufactures high-flex, EMI-shielded. The most responsive and flexible national supplier of custom-made cable products, we offer a full line of U. Read more about our products and learn more about

our highly responsive delivery process.

Special Light Cable Manufacturing Plant

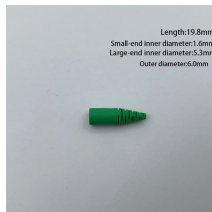

Engineered for resilience and performance, our range of medium to extra high voltage and solar cables are crafted with precision to withstand the most demanding conditions, ensuring uninterrupted power ...

Our custom-made, high quality cable products are assembled in the United States, and we provide a total solution for custom fiber optic and electronic cable needs that help integrate systems on time ...

Source high-performance light duty cables and wires from APAR with large capacities, low lead times and ILAC MRA accredited testing for B2B projects.

With more than 25 years of experience supplying military tactical and tight-buffered indoor/outdoor fiber optic cables, OCC understands the requirements for tight-buffered fiber optic cables that can ...

We Thrive in Tough Environments Successful Deployment of Products Include Core-Locked™ Ultra-Fox™ Ultra-Fox™ Plus With more than 25 years of experience supplying military tactical and tight-buffered indoor/outdoor fiber optic cables, OCC understands the requirements for tight-buffered fiber optic cables that can withstand the most challenging conditions found in industrial areas. With successful experience in designing special wire and cable machinery, such as fire-resistant cables and fiber optic cables, we are equipped to deliver customized solutions.

Y.C. Cable is a trusted cable assembly manufacturer providing custom cable assemblies and wire harness solutions for automotive, medical, industrial, and telecom applications. Built to your ...

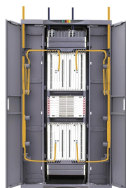

A new Lightera and Furukawa Electric manufacturing plant in Mie supports growing hyperscale and AI demand with ultra-high-fiber-count optical cables.

With a wide range of hardware and fittings also available, our lighting cable assemblies are ready to enhance the safety, design, and brilliance of your portable, fixed, or specialty lighting fixtures.

A new Lightera and Furukawa Electric manufacturing plant in Mie supports growing hyperscale and AI demand with ultra-high-fiber-count optical cables.

We manufacture more than hundreds of FDA registered medical cables for most complex medical lighting needs. We also offer a comprehensive product and service range for military, industrial, and ...

We specialize in built-to-spec electro-mechanical assembly and have more than 35 years of experience manufacturing custom cables, wiring harnesses, panels, box builds, test equipment and one-of-a ...
