

TP8-port gigabit switch as an aggregation switch

Overview

Equipped with all-fiber ports, Aggregation Series Switches deliver up to 25 Gbps. With features such as Static Routing, DHCP Server, ACL, IGMP Snooping, STP, LAG, and centralized cloud management, they offer a robust and reliable solution for the aggregation layer of SMB. Check each product page for other buying options. TP-Link 5-Port Gigabit Ethernet Easy Smart Switch| Plug and Play | Desktop | Sturdy Metal w/Shielded Ports | Limited Lifetime Replacement (TL-SG105E), Black. Need help?

>TP-Link takes your privacy seriously. For further details on TP-Link's privacy practices, see TP-Link's Privacy Policy. 3af/at (PoE+) standard with total PoE power budget of 116W and useful PoE power management features. Select models. An aggregation switch is a network device that consolidates traffic from multiple access switches, wireless access points, or other edge devices and forwards it to core switches or routers. The switch comes with 8 gigabit ethernet ports. more TP-Link TL-SG108 is a budget switch that provides some of the OSI layer 2.

TP8-port gigabit switch as an aggregation switch

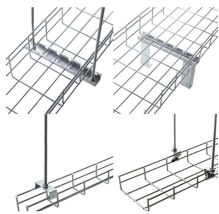

TP-Link TL-SG108 is a budget switch that provides some of the OSI layer 2 features such as VLAN tagging, LAG (Static Link Aggregation) and QoS (Quality of Service). The switch comes with 8...

TP-Link JetStream L2+ 10-gigabit managed switches provide a reliable, secure solution for enterprise, campus and ISP networks. Omada Software Defined Networking (SDN) platform integrates network ...

TP-Link JetStream Gigabit Smart Switch T1500G-10MPS is equipped with 8 gigabit RJ45 ports and 2 SFP slots, all RJ45 Ports support the 802.3af/at (PoE+) standard with total PoE power budget of ...

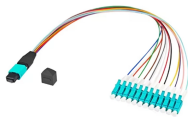

Discover the role of aggregation switches. Explore differences between aggregation, access, and core switches, and choose the right model for your network.

TP-Link JetStream L2+ 10-gigabit managed switches provide a reliable, secure solution for enterprise, campus and ISP networks. Omada Software Defined ...

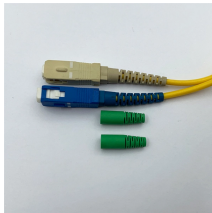

Connect up to 8 devices directly to your router using TP-Link's secure, reliable gigabit network switches that are easy to install and more intelligent than a hub

Plug in the TL-SG108 to add eight gigabit Ethernet ports to your home network, giving wired devices predictable, low-latency connections for gaming, streaming, CCTV, and home labs.

For more application of layer 2 switches, TL-SG2008 supports a complete lineup of layer 2 features, including 802.1Q tag VLAN, Port Isolation, Port Mirroring, STP/RSTP/MSTP; Link Aggregation ...

Equipped with all-fiber ports, Aggregation Series Switches deliver up to 25 Gbps. With features such as Static Routing, DHCP Server, ACL, IGMP Snooping, STP, LAG, and centralized cloud management, ...

Not super hard to do so, but you'll need to know how to open certain ports on your firewall. Or, use this switch in self managed mode (i.e. without Omada). Takes a while to get started esp on vlan but it all ...

BrosTrend 8-Port 2.5G Ethernet Switch Multi-Gigabit Unmanaged Network Switch 2.5Gb Switch Supports Static Link Aggregation & VLAN, Ethernet Hub Fanless, Desktop Wall Mount, Limited ...
