

The AAU and BBU single-core optical modules were inserted incorrectly

Overview

Therefore, when the field optical cable is connected to the AAU, an outdoor quick-lock connector should be used to fix the sheath of the field optical cable to avoid direct stress on the single-core optical cable. However, the height of the outdoor quick lock connector is less than 10. AAU3940 Installation Guide

About This Document About This Document Overview This document describes procedures for installing an active antenna unit 3940 (AAU3940, which is shortened to AAU in this document) and its cables. It also provides the checklists for hardware installation. Product Version. The ADD NRDUCELLCOVERAGE command is used to add an NR DU cell coverage area and associate the cell with sector equipment. RF equipment □ RRU / AAU/ Prru □ :A group of RF processing units, such as RRUs, RFUs, pRRUs, and AAUs. Run the ADD RRU and ADD RRUCHAIN commands to add RF equipment and map the. Compared with Issue 09 (2018-03-16), this issue excludes the following topics: ● Assembling the OT Terminal and the Power Cable ● Adding a Female Fast Connector (Pressfit Type) to the AAU Power Cable on the AAU Side ● Assembling an EPC4 Connector and the Power Cable 09 (2018-03-16) This is the. Here is the process of binding a GPS SPD in the TP48200A cabinet. For

details about how to install a GPS SPD in other scenarios, please see “ (Optional) Installing a GPS SPD” in eNodeB Product Documentation. Install a ground cable for the GPS SPD. Compared with Draft A (2013-07-30), this issue includes the following new topic: 2. This section describes engineering specifications of an AAU, including input power and equipment specifications. 7. Difference Between AAU, RRU, and BBU AAU, RRU, and BBU are key components in a telecom network, particularly in modern wireless communication systems like 4G and 5G.

The AAU and BBU single-core optical modules were inserted incorre

Connected to the RRU or AAU via fiber optic cables. RRU (Remote Radio Unit) Converts digital signals from the BBU into radio signals and vice versa. Mounted near the antenna to reduce signal...

AAU3940 Installation Guide: Detailed instructions for installing the AAU, cables, and auxiliary hardware. Includes checklists for hardware installation.

Overview This document provides reference for planning and deploying an Active Antenna Unit 3902 (AAU3902, which is shortened to AAU in this document). It ...

Therefore, when the field optical cable is connected to the AAU, an outdoor quick-lock connector should be used to fix the sheath of the field optical cable to avoid direct stress on the ...

Overview This document provides reference for planning and deploying an Active Antenna Unit 3902 (AAU3902, which is shortened to AAU in this document). It describes the exteriors, functions, ...

1 According to the network planning, the boards in the BBU are inserted in the proper slots and secured. 2 The subrack which is used to install the BBU is steady installed.

When a multimode optical fiber connects a BBU and an AAU, the breakout cable on the BBU side is 0.34 m (1.12 ft) and the breakout cable on the AAU side is 0.03 m (0.098 ft).

NOTE AAUs can also be installed together with optical distribution frames (ODFs). This document uses ODMs as examples.

Before installing an AAU, take power terminals out of its maintenance cavity and install optical modules. Before installing an AAU on a pole, you need to lift the AAU to the installation position on the pole. ...

Length:39.5mm
Small-end inner diameter:2.0mm
Large-end inner diameter:5.0mm
Outer diameter:5.65mm/6.5mm

AAU (Active Antenna Unit): Integrates multiple beams to receive signals from the RRU, which have been converted from the BBU. The AAU enhances signal transmission and reception ...
