What tools do you need to measure the correct height?

What are the risks of not following height. A septic distribution box (D-box) is a concrete or plastic junction that evenly distributes wastewater from your septic tank to all drainfield lateral lines. When it fails, symptoms include uneven wet spots in the yard, slow indoor drains, and sewage odors. Fixes range from jetting clogged outlets. Will pour concrete box in place instead of old plastic box that is all cracked. It takes the incoming power and safely distributes it to different circuits throughout your building.
