

Uehara Communications and Saudi Arabian Tower

Overview

Building owner JEC halted structural concrete work in January 2018, with the tower about one-third completed, due to labour issues with a contractor following the Saudi Arabian purge. Architectural style Location, Mecca Province, Saudi Arabia Architectural At least 1,008 m (3,307 ft) Status Under construction Overview Jeddah Tower is a under construction in, Saudi Arabia. Located in the north of the city, it is the centrepiece of the project. Jeddah Tower is planned to be the first 1-kilom. Jeddah Tower's 50-hectare (120-acre) plot, along with surrounding buildings, will be the first of a three-phase Jeddah Economic City development. The three-phase project was proposed for a large area of undeveloped waterfront I. In May 2008, in the area cast doubt over whether the proposed location could support a skyscraper of the proposed one-mile (1,600 metres, 5,250 ft) height, and reported that the project had been scale.
