

What is PC mesh cable tray

Overview

Wire mesh trays allow you to drop cables in or out from any point —top, bottom, or side—without any disassembly. This makes moves, adds, and changes (MACs) incredibly fast and simple, minimizing service disruption. They form an open, rigid structure used to support and organize large quantities of cable across both short and long distances. Unlike solid-bottom trays, their open design offers a unique set of advantages. For a long time, wire mesh trays sat in a narrow corner of the cable management world. Engineered for durability and airflow, our systems provide a robust, flexible, and easy-to-install. A key solution for organizing electrical cables is the Wire Mesh Cable Tray. With a wide range of options, find the perfect fit for your data center's unique needs and enjoy seamless installation and.

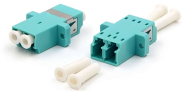

What is PC mesh cable tray
