

Which Austrian micro-module manufacturer is the best

Overview

Here are the 19 Top Semiconductor Companies In Austria In 2026 and their top employee and leadership contact details: How many companies are listed here?

This page currently includes 19 companies. What information is included for each company?

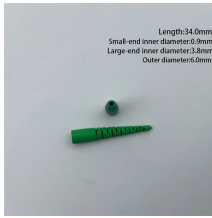

At this year's Bike Festival Riva, OSRAM Automotive will showcase its new LEDsBIKE® COMPACT series for everyday use on city, mountain, trekking and gravel bikes. Precision and reliability are becoming increasingly critical in modern vehicle systems, especially as the automotive industry accelerates. ams OSRAM AG is an Austrian semiconductor manufacturer headquartered in Premstätten, Austria with a co-headquarters in Munich, Germany. The company develops and produces intelligent sensors and emitter components. In 2020 ams AG acquired the German lighting, LED, and opto -semiconductor. Formed in 1981, ams AG, formerly known as austriamicrosystems AG, AMS (Austria Mikro Systeme International Aktiengesellschaft m. STMicroelectronics

Austria (ST Austria) is located in Graz. What Is a Camera Module?

What Is a Camera Module?

A camera module is an industrial device similar in structure to a consumer single-lens reflex camera.

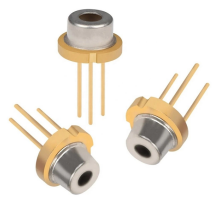

Which Austrian micro-module manufacturer is the best

ams OSRAM AG is an Austrian semiconductor manufacturer headquartered in Premstätten, Austria with a co-headquarters in Munich, Germany. The company develops and produces intelligent sensors ...

This section provides an overview for camera modules as well as their applications and principles. Also, please take a look at the list of 28 camera module manufacturers and their company rankings.

Microdul is specialized in manufacturing high-quality, miniature electronic modules and in the processing of uncased integrated circuits.

III-V Technologies GmbH is an Austrian startup that focuses on innovative semiconductor solutions for various applications, including faster processors, quantum computing, and sensors.

Our 13 manufacturing sites master all aspects of the semiconductor supply chain and offer our customers the quality, flexibility, and supply security they need. STMicroelectronics Austria (ST ...

Are You Looking For the Best semiconductor companies and distributors In Austria? You've come to the right place, this list will tell you everything.

ams OSRAM AG is an Austrian semiconductor manufacturer headquartered in Premstätten, Austria with a co-headquarters in Munich, Germany. The company develops and produces intelligent sensors and emitter components. In 2020 ams AG acquired the German lighting, LED, and opto-semiconductor manufacturer OSRAM. Since then, the company operates under the name ams OSR...

With its SMARTLED™ Pure 0201, ams OSRAM introduces a new generation of ultra-compact LEDs that bring uniform, elegant light into today's thinnest device designs.

The company was named Austria Mikro Systeme International Gesellschaft m.b.H. with HQs in Unterpremstaetten near Graz, Austria. In 1983 the Austrian chancellor Fred Sinowatz officially ...

MSE was founded as a supplier of electronic modules for implantable pacemakers. The development and manufacture of modules for life-sustaining medical devices and other critical applications ...

Austria has a small but growing semiconductor industry, with several companies specializing in the design and production of semiconductor components. These companies include ams AG, Infineon ...
