

Which outdoor server rack is best for India

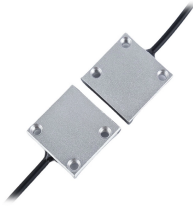

Overview

Server racks in India come primarily in three configurations: open frame racks, enclosed server racks, and adjustable server racks. Open frame racks offer excellent airflow but less security, suitable for less sensitive environments. If you're installing networking or IT gear outdoors—like cellular backhaul, public Wi-Fi hubs, traffic control systems, or remote surveillance servers—you need a rack that survives rain, dust, UV exposure, and temperature swings.

Enclosures are fabricated out of Galvanized/CRCA Steel, CNC programmed, punched, bent, welded and Powder coated with highest quality standards as per the required Outdoor Standards. Configuration for standard Racks are Welded. We Provide outdoor cabinet range provides single or multi-chamber, temperature controlled secure environment for valuable sensitive communications, electronic & electrical equipment, in a cost effective and space saving manner.
