

X2 10 Gigabit Single-Mode Fiber Module

X2 10 Gigabit Single-Mode Fiber Module

The Cisco X2-10GB-LR is a transceiver module designed for use in Cisco networking equipment. It is a 10 Gigabit Ethernet transceiver that supports long-range connections over single-mode fiber optic ...

FS 10GbE SFP+ module solutions provide a wide variety of 10 Gigabit Ethernet connectivity options for data centers, enterprise wiring closets, Internet Service Providers (ISPs) applications.

The Cisco® 10GBASE X2 modules (Figure 1) offer customers a wide variety of 10 Gigabit Ethernet connectivity options for data center, enterprise wiring closet, and service provider transport applications.

Our X2-10GB-LR is 100% compatible with the original Cisco X2-10GB-LR. We have a large quantity of X2-10GB-LR transceivers in stock and can ship the X2-10GB ...

Read this data sheet to learn the benefits, specifications, and ordering information for the Cisco 10GBASE X2 Modules.

Learn how to match legacy X2 and XENPAK fiber module optics to real 10G links, with specs, compatibility checks, and troubleshooting for field deployments.

The Cisco 10GBASE-LR Module supports a link length of 10 kilometers on standard single-mode fiber (SMF, G.652). X2 modules are supported on Cisco switches and routers.

The 10GBASE-SR X2 module supports a link length of up to 26m on standard duplex Fiber Distributed Data Interface (FDDI) grade multimode fiber (MMF). A link length of up to 300m is possible using ...

This Cisco compliant X2-10GB-LR is a 10GBASE-LR X2 1310nm 10km transceiver module. The X2-10GB-LR transceiver module provides a low cost high-performance connection. The X2-10GB-LR is ...

The Cisco X2-10GB-ER 10 Gigabit BASE-ER SMF X2 Optical Transceiver is a plug-in module designed for long-distance communication over single-mode fiber optic cables.

Product Description Cisco X2-10GB-LR 10Gbps 10GBase-LR Single-Mode Fiber 10km 1310nm Duplex SC
