

# Zambian spiral wound tubing NEMA4X

## Zambian spiral wound tubing NEMA4X

The Flexitallic Spiral Wound Gasket is the precision engineered solution to such problems, meeting the most exacting conditions of both temperature and pressure in flanged joints and similar assemblies ...

These pipes achieve superior resistance to pressure and corrosion and harsh environmental conditions through their production by advanced spiral welding techniques in Zambia.

Controlled forming techniques combined with spiral welding ensure strong seam bonding and uniform wall thickness throughout the pipe length in Zambia. Detailed attention is given to steel grade ...

Electrolock can provide large continuous length tubing in rolls that are either Layflat or spiral wound constructions. These can be easily incorporated into your automated production equipment to save ...
